**Budget Estimates for
1928-29,
Mayo College Fund.**

The budget Estimate of the Mayo College Fund for the year 1928-29 is given in Annexure I.

The income of the Mayo College Fund including contributions from the Games Fund and the Post-Diploma Course Fund for the year 1928-29 is estimated at Rs. 1,59,896-0-0 against which an expenditure of Rs. 1,68,510-0-0 is proposed showing a deficit of Rs. 8,614-0-0 which will be met from the savings of the last year.

The closing balance of the Mayo College Fund on 31st March 1929 is estimated at Rs. 1,21,137-0-0 as shown below :—

Opening balance on 31st March 1928	Rs. 1,29,781	0	0

			Balance	...	Rs. 1,21,137	0	0

**Post-Diploma Course
Fund.**

The Budget Estimate of the Post-Diploma Course Fund for the year 1928-29 is given in Annexure J.

The income of the Post-Diploma Course Fund being the donations from Princes, fees from boys of the Post-Diploma Classes and interest on unutilized amounts is estimated as Rs. 31,580-0-0 and the expenditure at Rs. 42,890-0-0 showing a deficit of Rs. 11,310-0-0. This deficit is mainly due to the fact that pension contribution was not paid for Munshi Gopi Nath Mathur in previous years, but it has now been decided that it should be paid from 1st April 1923, contribution previous to this date having been waived by Government. Provision has therefore been made for it in the budget, and this has increased the expenditure of the year.

The closing balance of the Fund on 31st March 1929 is therefore estimated at Rs. 143,629-0-0 as shown below :—

Opening balance on 31st March 1928	Rs. 1,54,939	0	0

Inspector's Report 1928.

Mayo College, Ajmer.

I visited the Mayo College, Ajmer, on April the 2nd and 3rd, 1928. The time at my disposal, two days, was insufficient to enable me to inspect in detail all the activities of the College. I visited the Jaipur Hostel and made a tour of the grounds and buildings under the guidance of Major G. Howson, saw the various classes of the College at work, supervised the conduct of the science, survey and petition reading examinations, held the oral examination in English for the Diploma and Higher Diploma Examination, watched the riding parade in the morning and saw something of the College games.

2. Some of the corrugated iron latrines in the grounds are conspicuous and detract from the beauty of the place.

3. The boys in the Jaipur Hostel are very comfortably housed. The garden is well cared for and is a source of interest to the boys. Under the care of Major Howson improvements are being made in the boys' rooms, e.g., rails and hooks for clothes have been put in, plugs for hand-lamps are to be installed and at least one comfortable chair provided in each room. An almirah in each room for clothes would be useful. These are small points but the changes made and proposed will add to the boys' comfort and will help to teach them the art of living decently and decorously and of caring for their clothes and other possessions. The care that is being taken over these details reflects the interest the staff takes in the well-being of the boys.

4. Apart from minor defects the College staff is training the students admirably. I saw something of the teaching of English, Geography, Hygiene, Arithmetic and Religion. In class II, which is the highest but one, the boys in English were taken in two batches, the more advanced being taught separately from those more backward. In such a College with but small numbers this arrangement is possible. I suggest that in other classes also, particularly in Arithmetic, it should be possible to allow the boys to work more as individuals than as a class. With only 11 or 12 boys an energetic master should be able to teach the boys on a modified Dalton plan allowing each boy to work at his own speed instead of endeavouring to keep the class together. I noticed that the boys were using Chakravarti's Arithmetic which is now somewhat out of date and should be replaced by a more modern book. I was disappointed with the English Grammar and reading of the Higher Diploma class. English Grammar needs more attention here and the expression and emphasis in reading aloud was unnatural and strained. As a whole the work in class showed clearly that the boys' interest in life was not being dulled but made more lively by their work.

5. During the Survey Examination I observed that the boys were not supplied with any means of determining the north point and that they paid insufficient attention to this primary requisite for a good survey. The Examination was otherwise well planned.

6., The College has many activities Polo, Cricket, Tennis, Gardening, Riding, Sports, First Aid Lectures and a wide range of subjects taught in class:—English, English History, Indian History, Geography, four Vernaculars, Arithmetic, Geometry, Algebra, Law, Land Revenue, Surveying, Science, Classical Languages and Drawing. As a preparation however for the life these young men and boys, will lead when they leave the College, I suggest that their interest might be more directly aroused in agricultural processes. This could be done by the establishment, within the College grounds which are of wide extent, of a model farm which the boys could visit at intervals and where they could study improved methods of cultivation. Such a farm run on economic lines should

be, if not profitable, at any rate, self-supporting or nearly so. Another line of development would be a workshop where the boys could gain a general knowledge of modern carpentry and modern machines. That the boys are interested in such things was evident in my talks with them.

The manly, friendly and well-disciplined attitude of the boys, their general knowledge, their class room attainment, their lively curiosity and their keen interest reflect credit on the staff and the Principal. The standard of attainment, in colloquial English in particular, is high.

ANNEXURE P.

Proceedings of the Meeting of the General Council of the Mayo College held in the Committee Room of the Foreign and Political Department of the Government of India, New Delhi, on the 23rd February 1928.

PRESENT.

The Hon'ble Mr. L. W. Reynolds, C.I.E., M.C., I.O.S., Agent to the Governor-General, Rajputana (*Vice-President*).

His Highness the Maharaja of Jodhpur.

His Highness the Maharaja of Bikaner.

His Highness the Maharaja of Alwar.

His Highness the Maharao of Kotah.

His Highness the Maharaj Rana of Dholpur.

Colonel H. S. Strong, Resident, Western Rajputana States.

Colonel R. J. W. Heale, O.B.E., Commissioner, Ajmer.

Mr. A. N. L. Cater, Resident, Jaipur.

Mr. R. Littlehales, C.I.E., Educational Commissioner.

Captain W. F. Webb, Tonk representative.

Rao Sahib Pandit Shanker Nath, Karauli representative.

Dhar State representative.

Major General G. A. H. Beatty, C.B., C.S.I., G.M.G., D.S.O., Military Adviser-in-Chief, Indian States Forces.

Mr. F. A. Leslie-Jones, C.B.E., Principal and Secretary.

Main Question I.—The Council having considered the draft scheme for the future of the Chiefs' Colleges and their relations with the Government of India passed the following resolutions:—

Resolution I.—Proposed by H. H. of Alwar.

Seconded by H. H. of Bikaner.

That as the draft scheme involves the consideration of fundamental questions of policy affecting the political, financial and educational control of the College, including in the term educational the crucial question of recruitment of staff, a small Committee be appointed to examine these questions in detail and formulate proposals for the consideration of the General Council.

It is recognized that finance is the crux of the problem. The financial aspect should therefore be specially examined and recommendations made to enable the States to decide if they are prepared to back the scheme financially.

That the Committee's report be brought before a special meeting of the Mayo College General Council which should be held at Mount Abu for the purpose in May or June of this year.

That the Committee's report be circulated to the States for consideration at least a month before the date fixed for the General Council meeting.

That the Committee consist of the following members:—

- (a) 2 members to represent the Princes. (It was suggested that Raj Kumar Umaid Singh of Shahpura and Apji Onkar Singhji of Palaita be invited to act.)
- (b) 2 members to represent the States. (It was suggested these might be M. Maqbul Hasan Revenue Minister, Alwar and Pandit Amar Nath Atal, Finance Member, Jaipur.)
- (c) 2 Political Officers of whom one should be Commissioner of Ajmer and the other a Political Officer nominated by the Agent Governor-General.
- (d) The Principal, Mayo College, as Secretary.

The draft Scheme proposed by Government was then considered in detail with the object of laying down general lines for the guidance of the Sub-Committee, and the following resolutions were passed:—

Resolution II,—That para 1 of the draft scheme be approved.

Resolution III,—That as regards paras 2 and 3 of the Government draft scheme, the system proposed for distributing Government grants is unnecessarily complicated and that the criteria on which the grants are to be given are open to objection. The financial condition of the College and the report of the Inspectors afford the only sound criteria, and grants from Government should be, in the future as in the past, in the form of a lump sum which could be reconsidered at an interval of years, say five if necessary.

Resolution IV,—That the system of annual inspection is satisfactory, but that the proposal to associate a Political Officer with the Inspecting Officers has little to recommend it for the reasons given in the Principal's note on Sub-question VI as follows:—

Para 4 (a) and (b)—would seem to assume powers and knowledge in the Political Officers associated with the Educational Officers for the purpose of the annual inspection such as no man could possess or gather from a stay of two or three days at the Mayo College. On his reports in the main is to depend the quinquennial revision of the permanent grant. Such a system would be suitable for a board school possibly, but I consider it would be quite ridiculous to have the value of the work of the Mayo College which draws from all parts of India assessed at the Mayo College. I hold that the value of the Mayo College cannot be assessed at all at the present time. After another 50 years of its continued existence there will be some possibility of framing a judgment—but if an attempt were to be made now, the Political Officer would have to visit an innumerable number of States and Thikanas in Rajputana and Central India and every Agency in India."

Resolution V,—That with regard to para 5 of the draft scheme steps should be taken to obtain legal opinion—

- (a) as to the liability which would be incurred (a) by the Council collectively and (b) by its members individually, if it became a corporate body capable of suing and being sued;

- (b) whether the property of the College at present under various ownership would have to be vested in the corporation;

- (c) whether the registration should be under the Registration Act or the Companies Act.

At 2.15 (a) the Vice-President pointed out that it was clear that if the proposal of the Government was accepted, the various College buildings could not remain under the present ownership.

Resolution VI.—That the proposal to assign to His Excellency the Viceroy certain definite powers of sanction and control requires elucidation, as it is not clear what powers of control could be given which would be consistent with the responsibility of the Governing Body as a corporation liable to be sued.

Main Question II.—Consideration of the proposal of the Government of India to recommend to the Secretary of State that the services of the six additional Indian masters (two for the Post-Diploma Classes and four for the College created in 1912) should in the special circumstances of the case be treated as pensionable provided pension contributions on their behalf are paid by the College, from the 1st April 1923, the arrears prior to that date being waived.

Note by the Principal.—

The case is briefly this; in September 1911 the College Council created two additional posts on the Indian Staff at the Mayo College for work in the Higher Diploma Classes and in July 1912 four additional posts on the Indian Staff for work in the College. At the time of the creation of these appointments the sanction of Government and of the Secretary of State was not obtained. This omission was not noticed until one of the incumbents retired and the question of his pension then came up.

Correspondence with Government was started on the subject in July 1923 by the Hon'ble Mr. C. O. Watson who was then acting as Agent to the Governor-General in Rajputana. In July 1927, the Government of India decided to recommend to the Secretary of State that the services of the six additional Indian Masters should be treated as pensionable, provided that pension contribution on their behalf were paid by the College from 1st April 1923, the arrears prior to that date being waived. Before approaching the Secretary of State the Government of India desired to know at a very early date whether the authorities of the College were prepared to meet these pension contribution charges. In view of the urgency of the matter the Vice-President of the Council finding that the College could meet these charges—amounting in all to Rs. 10,261/—replied that the consent of the General Council might be assumed in order that the Secretary of State might be addressed on the subject without delay.

The Question is now brought before the Council to obtain their approval to the action taken.

Resolution VII.—Resolved that the action taken by the Agent Governor-General be approved.

.

When the official agenda had been disposed of, the following questions were brought up and discussed:—

1. It was reported by the Vice-President that the Government of India have refused to accept liability for pensions to the Indian Masters of the Mayo College in accordance with the revised scales of pay introduced in 1920 and 1926. If the Government of India are not prepared to reconsider their decision it will be necessary to ask them to accept arrears of pension contributions and the sanction of the General Council was sought to this proposal.

Resolved that the proposal of the Agent Governor-General be approved.

2. His Highness the Maharaja of Bikaner asked whether any decision had been reached on the question of the continuation of the Post-Diploma Classes and the establishment of a cadet corps in the College.

The Vice-President pointed out that no decision had been reached on these questions owing to repeated attempts to convene a meeting of the General Council having met with no success. The Allahabad University had been approached and it was understood that

provided certain conditions were fulfilled, they were ready to recognise the Post-Diploma as equivalent to a degree.

Resolved that the question of the future of the Post-Diploma Classes and the scheme for a Cadet Corps at the Mayo College be considered by the General Council at the meeting to be held at Mount Abu in May or June next.

Terms of Reference.

To consider and report on the draft scheme proposed by the Government of India for the re-organisation of Chiefs' Colleges and to examine and report on the following points in particular:—

(1) If the governing Bodies of each College are reconstituted on a definite legal basis and become recognised corporations capable of suing and being sued, can powers of sanction and control be secured to His Excellency the Viceroy and, if so, what powers of sanction and control should be reserved to him?

(2) Is it desirable that the governing Bodies should be constituted as recognised corporations under the Registration of Societies Act (21 of 1860) or under the Companies Act?

(3) In the event of the governing Body being constituted or recognised corporation on a legal basis:—

(a) What would be the extent of the liability of (a) the Council collectively and (b) the individual members, and

(b) would it be necessary to transfer the property of the College which is at present owned partly by Government and partly by different states, to the Corporation as constituted?

(4) If the European and Indian staff in future are to be employees of the governing Body and recruited by it:—

(a) What establishments will be required:

(1) With the Post-Diploma Course,

(2) if the Post-Diploma Course is abolished, and

(b) what rates of pay will it be necessary to offer to:

(1) European Masters and

(2) Indian Masters?

(c) Should these appointments be pensionable or a Provident Fund established.

(5) Assuming that a grant from Government will be available approximately equal to that now sanctioned, what will be the financial effect of the re-organisation and what additions to the existing endowment funds will be required to place the College on a satisfactory financial footing?

ANNEXURE Q.

Proceedings of the Meeting of the Sub-Committee appointed by the General Council at the Mayo College to consider and report upon Main Ques- tion I of the Agenda of the Mayo College Council Meeting held at Delhi, on 23rd of February 1928.

~~CONFIDENTIAL~~

The Sub-Committee met on April 23rd, April 24th and April 26th.

The following attended the meetings :—

Lieutenant-Colonel C. H. Gabriel, C.V.O.

Lieutenant-Colonel R. J. Macnabb.

Raj Kumar Umed Singh of Shahpura.

Pandit Amar Nath Atal.

F. A. Leslie-Jones, Esqr., C.B.E.

M. Maqbool Muhammad was prevented by illness from attendance.

Owing to domestic reasons Raj Kumar Umed Singh of Shahpura was able to attend only one of the four sittings of the Committee.

REPORT.

The following is the report of the Sub-Committee.

We have considered the draft scheme for the future of Chiefs' Colleges and their relations with the Government of India and are of opinion that so far as the Mayo College is concerned it is capable of adoption provided that Their Highnesses the Ruling Princes of Rajputana and others who are interested in the future well being of the College, are prepared to donate to the existing endowment a sum sufficient to meet the increased expense which the re-organisation will entail. As will be seen hereafter, this amount would be not less than ten and not more than sixteen lakhs.

General.

We are impressed by the inconvenience which must inevitably arise by reason of the uncertainty as to the exact figure of the annual grant to be allotted by Government and would urge that, if possible, such grant on whatever basis allotted be fixed for a period of five years.

Assuming the incorporation of the College on a definite legal basis, we are of opinion that the powers to be exercised by His Excellency the Viceroy must necessarily be circumscribed and limited to those of Patron of the College. We are constrained to this opinion by the obvious necessity of His Excellency being outside and beyond any legal formalities in which the Governing Body of the College might be involved.

Reference 1.

We are in some doubt as to whether registration should be under the Societies Act (21 of 1860), or under the Companies Act (7 of 1913). We have evidence before us of the registration of the Governing Body of an educational institution under the latter act, but we are inclined to favour the registration under the Societies Act in view of the somewhat simpler restrictions which it imposes. We recommend therefore that this point should be referred for expert legal opinion.

Reference 2.

Under the Societies Act the extent of the liability of the Governing Body collectively would not go beyond distraint against the property of the College and individual members would incur no liability.

Reference 3 (a).

Under the Companies Act the liability of the governing body collectively would presumably be unlimited while that of individual members would be limited to a sum to be fixed by the constitution of the Governing Body.

While recognising the desirability of all property connected with the College being vested in the institution as legally constituted, we are inclined for practical purposes to recommend that property owned by individual States might be excluded. Its inclusion would add greatly to the existing financial burden of the College as it would entail the payment of maintenance charges which are at present borne by the owners of those properties. Our recommendation therefore is that only property at present owned by Government should be transferred to the new institution.

Reference 3 (b).

We make the following recommendations with regard to establishment requirements:—

The Higher Diploma being maintained,

5 English Masters.

10 Indian Masters,

The Higher Diploma being abolished.

4 English Masters.

8 Indian Masters.

Reference 4 (a) (1) and (2).

This staff we consider in either case to be the irreducible minimum. In view of the facts that the general work in connection with games, exercises and supervision would be only very slightly reduced by the abolition of the Higher Diploma Classes and that one of the English Staff at any given time would generally be on leave and that casualties might occur in the remaining staff, we are inclined to recommend to the General Council the advisability of retaining five English Masters even with the abolition of the Higher Diploma Classes.

Reference 4 (b).

We would emphasise the necessity of offering rates of pay and conditions of service calculated to attract the very best men. We consider that incremental grades should be fixed and that the minimum salaries offered should be as follows :—

Principal	2,000—100—3,000+	Overseas allowance.
Vice-Principal	1,500—50—2,000	"
1st Assistant	500—50—1,500	"
2nd Assistant	500—50—1,500	"
3rd Assistant	500—50—1,500	"

The contract in the first case could be for a period of five years during which period it might be terminable by six months' notice on either side. At the end of this period the contract might be renewable for such further period as the contracting parties are agreed upon up to the ordinary age limit recognised by the Government of India.

In addition to the above rates of pay and terms of contract we recommend (a) that leave for one month for every twelve months' service on substantive pay only, and not on officiating pay, should be given ;

(b) that free passages should be given to India and homeward passages on the termination of each period of five years ;

(c) that a house simply furnished and rent free should be provided for each English Master ;

(d) that Overseas allowance in accordance with the regulations laid down by the fundamental rules as controlling the superior services should be given.

Reference 4 (b) 2.

With regard to the Indian staff, we see no reason why the present rates of pay should, under the changed constitution, be increased.

Reference 4 (c).

We are of opinion that the appointments, both English and Indian, should not be pensionable but that subscription to a provident fund should in both cases be compulsory.

Reference 5.

The financial effect of the re-organisation as considered by us is based upon the assumption that a grant from Government of approximately Rs. 50,000 per annum will be available.

On the assumption that the Higher Diploma Classes continue and that the states at present subscribing to their maintenance continue their contributions, the extra annual cost involved by the re-organisation will be equivalent to the interest on a capital sum of ten lakhs.

This sum would have to be increased by two lakhs, making 12 lakhs in all, in the event of the Higher Diploma Classes being abolished.

We further consider that to put the endowment of the College on a satisfactory basis, if the Higher Diploma Classes are continued, the subscriptions at present paid for their maintenance should be capitalised. To do this a sum of six lakhs would be required.

COMMISSIONER,
